

## WOODWORTH AVENUE STAGE 7 & 8 POP-UP STAGE

Woodworth Avenue currently features a 5,000 sq. ft. soundproof pop-up stage, equipped with its own lighting grid and a large door for direct truck access. A new 5,000 sq. ft. LED volume stage has been added, optimized for car process scenes but versatile enough to accommodate any production needs. Stage 7 has an adjacent 5,000 sq. ft. support area which includes a green room, dressing rooms, and lounge area that help support seamless operations. Moreover, there is 40,000 sq. ft. of additional set storage nearby.

Over the next year, the pop-up stage will be replaced with a traditional 10,000 sq. ft. sound stage. Planned expansions include a 13,500 sq. ft. mill and support space, as well as a 50,000 sq. ft. truck basecamp featuring water and electric hookups.

Conveniently located at the north end of the Wells Avenue campus, Woodworth Avenue is just a short walk from Stages 1-5, ensuring efficient connectivity for productions.
